

Admin Work Order Management System

Main Regular Flow (Happens Every Time)

```
Admin Login
↓
Create Work Order
↓
Assign Work (Manual / Auto)
↓
Contractor Completes Work
↓
Completion Notification
↓
Work Closed
```

Conditional Flow 1: Work Scope Reaches Maximum Limit

```
If Work Scope Amount ≥ Maximum Limit:
→ System Notifies Admin
→ Admin Splits Work Scope
→ Assigns to Multiple Contractors
→ Continue Normal Flow
```

Conditional Flow 2: Work Scope Below Contractor Rate

```
If Work Scope Amount < Contractor Rate:
→ System Notifies Admin
→ Admin Contacts Client
→ Increase Work Amount
→ Continue Normal Flow
```
