

AGENT CHANGE REQUEST BUG REPORT

Actual

Result:

The system is allowing invalid inputs in both fields. Replace Agent Name is accepting special characters and numeric values. Upload Document for Agent Name is allowing unsupported file formats such as .rar, .zip, etc.

Update Selected Fields

Current Agent Name

Narmada

Replace Agent Name

priya

Upload Document For Agent Name

Choose File

74. next_word_prediction (1).rar

Selected file: 74. next_word_prediction (1).rar

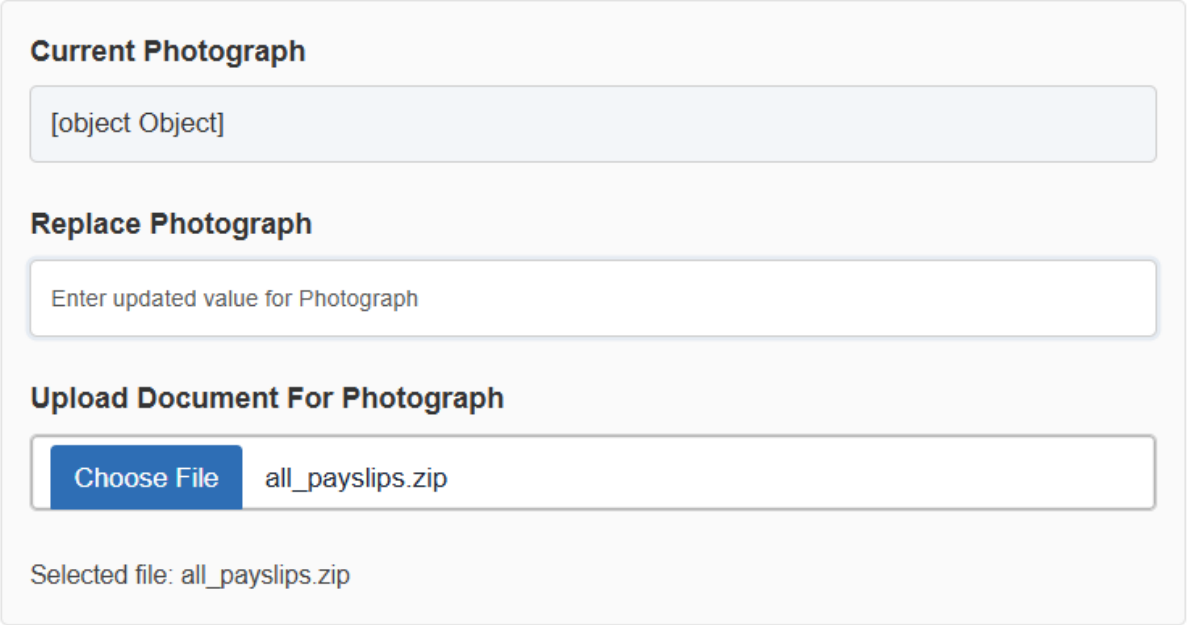

Expected

Result:

The system should enforce proper validations. Replace Agent Name should accept only alphabets (and spaces if allowed) and reject special characters and numbers with a validation message. Upload Document for Agent Name should allow only supported file formats such as .pdf, .jpg, .png and display an error message for invalid file types.

Actual Result:

The system is allowing invalid inputs in multiple fields. Replace Photograph field is accepting invalid or empty input without proper validation. Upload Document for Photograph is allowing unsupported file formats such as .zip files (e.g., “all_payslips.zip”).

Current Photograph

[object Object]

Replace Photograph

Enter updated value for Photograph

Upload Document For Photograph

Choose File all_payslips.zip

Selected file: all_payslips.zip

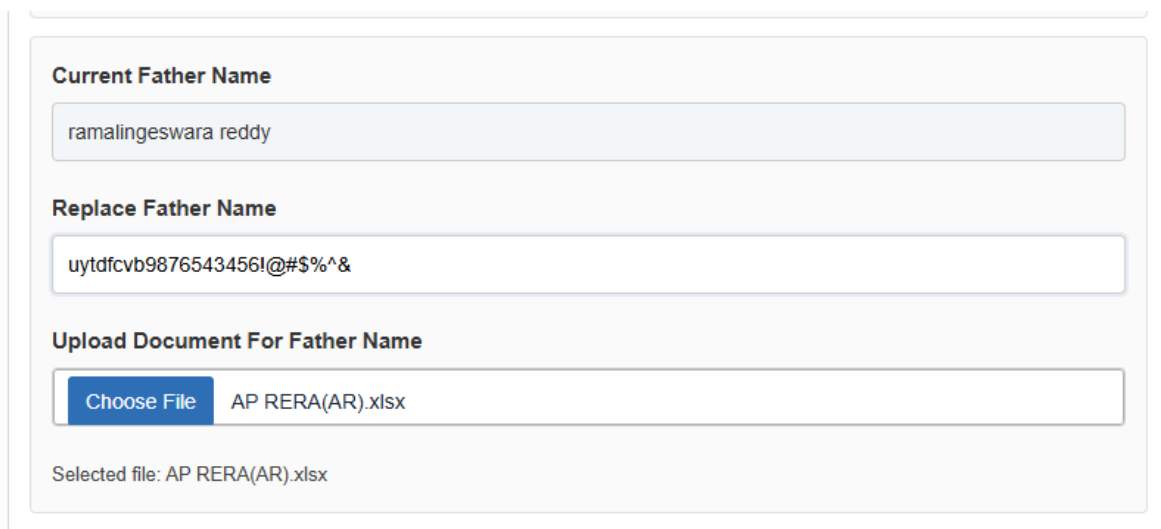

Expected

The system should enforce proper validations. Replace Photograph field should accept only valid inputs (as per requirement) and should not allow empty or invalid values. Upload Document for Photograph should allow only supported file formats such as .jpg, .jpeg, .png or .pdf and display a validation message when unsupported files like .zip are uploaded.

Result:

Actual**Result:**

The system is allowing invalid inputs in both fields. Replace Father Name is accepting special characters and numeric values. Upload Document for Father Name is allowing unsupported file formats such as .xlsx (and similar non-supported formats).

Current Father Name

ramalingeswara reddy

Replace Father Name

Upload Document For Father Name

[Choose File](#) AP RERA(AR).xlsx

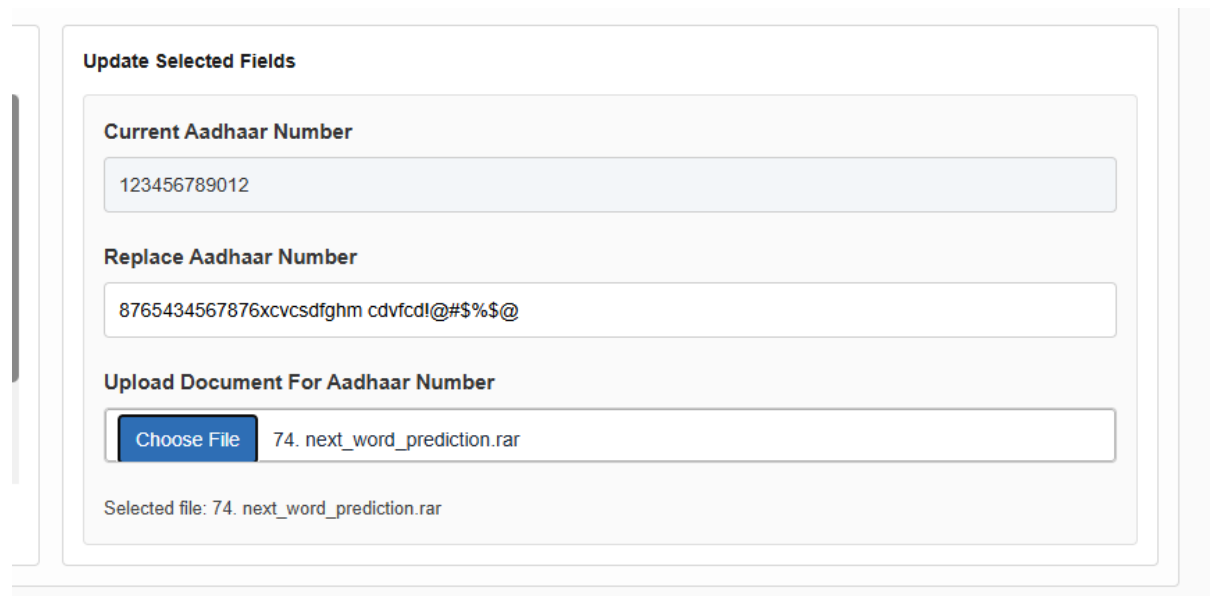

Selected file: AP RERA(AR).xlsx

Expected Result:

The system should enforce proper validations. Replace Father Name should accept only alphabets (and spaces if allowed) and reject special characters and numbers with a validation message. Upload Document for Father Name should allow only supported file formats such as .pdf, .jpg, .jpeg, .png and display an error message for invalid file types.

Actual**Result:**

The system is allowing invalid inputs in both fields. Replace Aadhaar Number is accepting special characters and values beyond the valid length without any restriction. Upload Document for Aadhaar Number is allowing unsupported file formats such as .rar and .zip files.

The screenshot shows a web form titled "Update Selected Fields". It contains three input sections:

- Current Aadhaar Number:** A text box containing the value "123456789012".
- Replace Aadhaar Number:** A text box containing the value "8765434567876xcvcdfghm cdvfdt!@#\$\$%\$@".
- Upload Document For Aadhaar Number:** A section with a blue "Choose File" button and a text box containing the filename "74. next_word_prediction.rar". Below this, it says "Selected file: 74. next_word_prediction.rar".

Expected**Result:**

The system should enforce proper validations. Replace Aadhaar Number should accept only numeric values and must be restricted to a valid 12-digit format, rejecting special characters and extra length with a validation message. Upload Document for Aadhaar Number should allow only supported file formats such as .pdf, .jpg, .jpeg, .png and display an error message for invalid file types.

Actual

The system is allowing invalid inputs in both sections. Replace PAN Card and Replace PAN Card Proof fields are accepting special characters and invalid formats instead of proper PAN structure. Upload Document for PAN Card and Upload Document for PAN Card Proof are allowing unsupported file formats such as .rar and .zip files.

Result:

Choose File

74. next_word_prediction.rar

Selected file: 74. next_word_prediction.rar

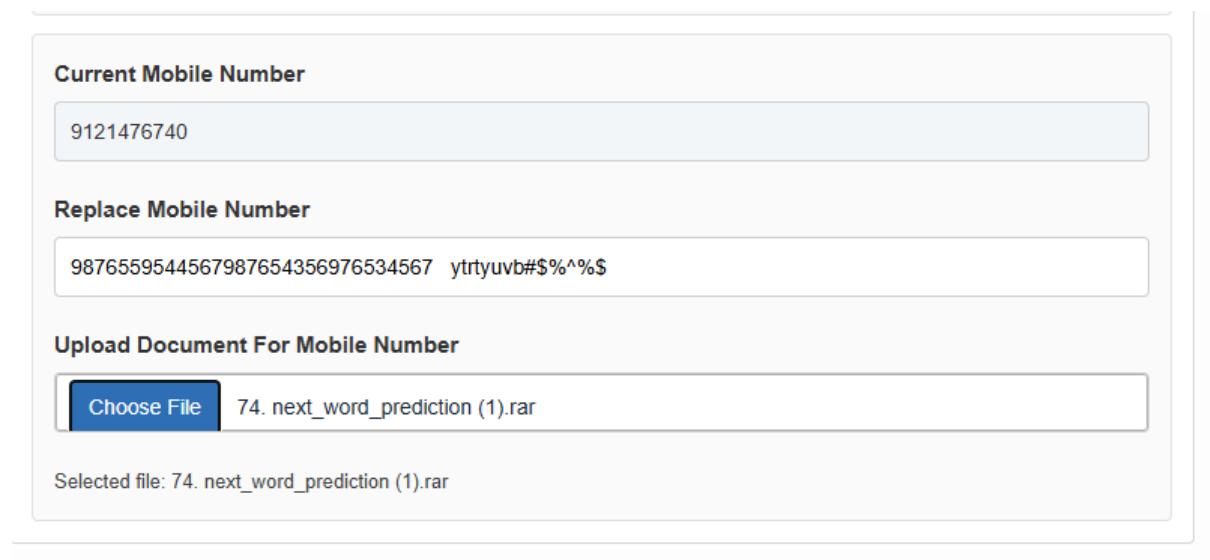

Expected

The system should enforce proper validations. Replace PAN Card and Replace PAN Card Proof should accept only valid PAN format (alphanumeric with correct structure, e.g., 5 letters + 4 digits + 1 letter) and reject special characters with a validation message. Upload Document for PAN Card and Upload Document for PAN Card Proof should allow only supported file formats such as .pdf, .jpg, .jpeg, .png and display an error message for invalid file types.

Result:

Actual Result:

The system is allowing invalid inputs in both fields. Replace Mobile Number is accepting special characters and values beyond the valid length without restriction. Upload Document for Mobile Number is allowing unsupported file formats such as .rar and .zip files.

The screenshot displays a web form with three sections. The first section, 'Current Mobile Number', has a text input field containing '9121476740'. The second section, 'Replace Mobile Number', has a text input field containing '9876559544567987654356976534567 ytrtyuvb#\$\$%^%\$'. The third section, 'Upload Document For Mobile Number', features a 'Choose File' button and a text input field containing '74. next_word_prediction (1).rar'. Below the file input, it says 'Selected file: 74. next_word_prediction (1).rar'.

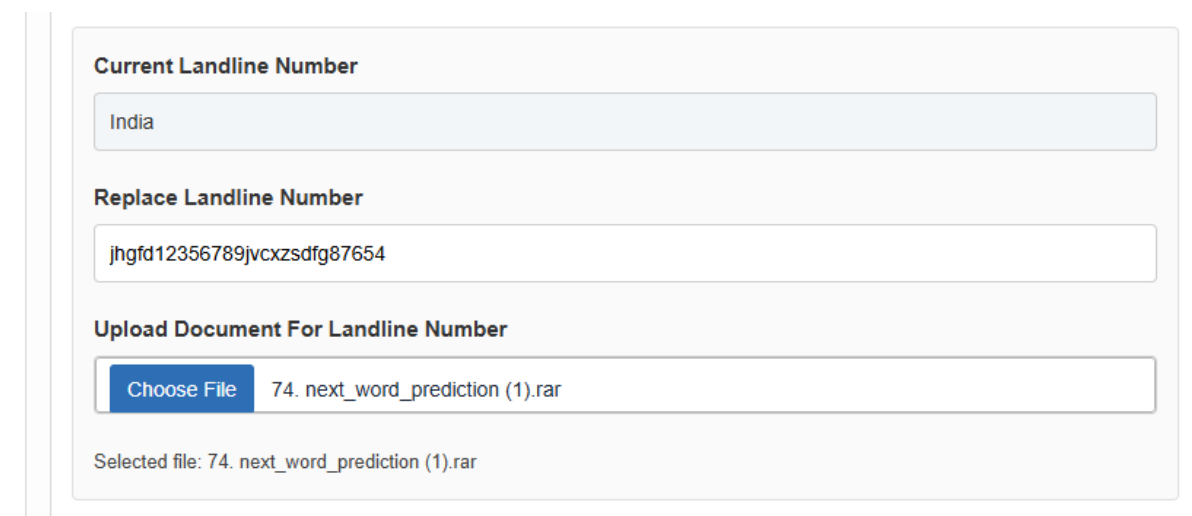

Expected

The system should enforce proper validations. Replace Mobile Number should accept only numeric values and must be restricted to a valid 10-digit format, rejecting special characters and extra length with a validation message. Upload Document for Mobile Number should allow only supported file formats such as .pdf, .jpg, .jpeg, .png and display an error message for invalid file types.

Result:

Actual**Result:**

The system is allowing invalid inputs in both fields. Replace Landline Number is accepting alphabets, special characters, and invalid length values without restriction. Upload Document for Landline Number is allowing unsupported file formats such as .rar and .zip files.

The screenshot displays a web form with three sections. The first section, 'Current Landline Number', contains a text input field with the value 'India'. The second section, 'Replace Landline Number', contains a text input field with the value 'jhgfd12356789jvcxzsdg87654'. The third section, 'Upload Document For Landline Number', features a file upload interface with a 'Choose File' button and a selected file named '74. next_word_prediction (1).rar'. Below the file selection, a message states 'Selected file: 74. next_word_prediction (1).rar'.

Expected**Result:**

The system should enforce proper validations. Replace Landline Number should accept only numeric values with a valid length (as per requirement) and reject alphabets and special characters with a validation message. Upload Document for Landline Number should allow only supported file formats such as .pdf, .jpg, .jpeg, .png and display an error message for invalid file types.

Actual**Result:**

The system is allowing invalid inputs in both fields. Replace Registration Number / License Number is accepting special characters, alphabets, and values beyond the valid length without restriction. Upload Document for Registration Number / License Number is allowing unsupported file formats such as .rar and .zip files.

Current Registration Number / License Number

765432

Replace Registration Number / License Number

Upload Document For Registration Number / License Number

Choose File 74. next_word_prediction.rar

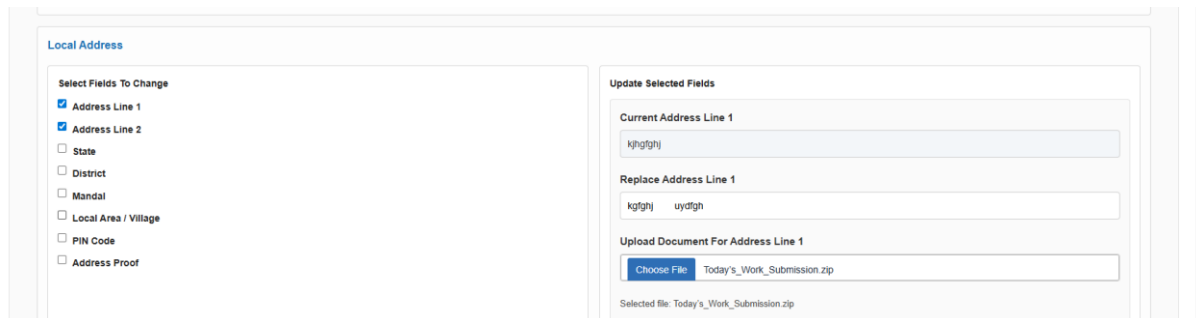

Selected file: 74. next_word_prediction.rar

Expected**Result:**

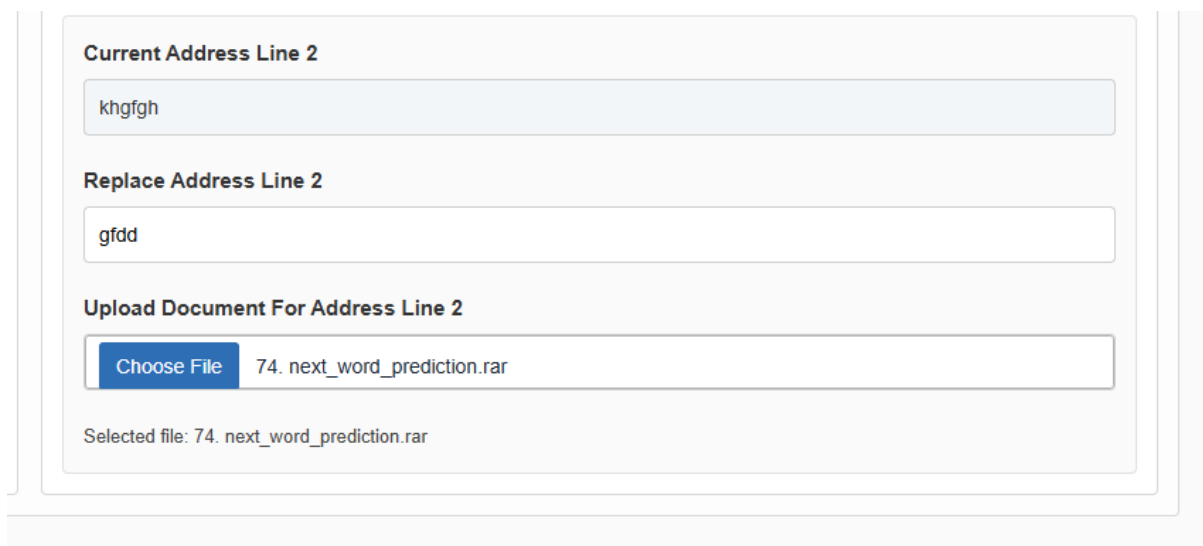

The system should enforce proper validations. Replace Registration Number / License Number should accept only valid alphanumeric or numeric format (as per requirement) with proper length restriction and reject special characters with a validation message. Upload Document for Registration Number / License Number should allow only supported file formats such as .pdf, .jpg, .jpeg, .png and display an error message for invalid file types.

Actual Result:

The system is allowing unsupported file formats in both sections. Upload Document for Address Line 1 and Upload Document for Address Line 2 are accepting .zip and .rar files without any restriction.

The screenshot shows a web form titled "Local Address". On the left, under "Select Fields To Change", the following options are listed: Address Line 1 (checked), Address Line 2 (checked), State (unchecked), District (unchecked), Mandal (unchecked), Local Area / Village (unchecked), PIN Code (unchecked), and Address Proof (unchecked). On the right, under "Update Selected Fields", there are three sections: "Current Address Line 1" with a text input containing "khgfhj", "Replace Address Line 1" with a text input containing "kgfhgj" and "uydfgh", and "Upload Document For Address Line 1" with a "Choose File" button and a file name "Today's_Work_Submission.zip". Below the file name, it says "Selected file: Today's_Work_Submission.zip".

The screenshot shows a web form titled "Local Address". On the left, under "Select Fields To Change", the following options are listed: Address Line 1 (checked), Address Line 2 (checked), State (unchecked), District (unchecked), Mandal (unchecked), Local Area / Village (unchecked), PIN Code (unchecked), and Address Proof (unchecked). On the right, under "Update Selected Fields", there are three sections: "Current Address Line 2" with a text input containing "khgfhg", "Replace Address Line 2" with a text input containing "gfdd", and "Upload Document For Address Line 2" with a "Choose File" button and a file name "74. next_word_prediction.rar". Below the file name, it says "Selected file: 74. next_word_prediction.rar".

Expected Result:

The system should restrict file uploads to only supported formats such as .pdf, .jpg, .jpeg, .png. When .zip, .rar or any unsupported file formats are uploaded, the system should display a validation message like "Invalid file format. Please upload only supported document types."

Actual Result:

The system is allowing invalid inputs in both sections. Replace State and

Replace District fields are accepting special characters, numeric values, and mixed invalid inputs without restriction. Upload Document for State and Upload Document for District are allowing unsupported file formats such as .rar and .zip files.

The image shows two screenshots of a web form. The top screenshot displays the 'Current State' field with 'Andhra Pradesh', the 'Replace State' field with 'Andhra Pradesh 9876543234567876543', and the 'Upload Document For State' section with a file named '74. next_word_prediction.rar'. The bottom screenshot displays the 'Current District' field with '23', the 'Replace District' field with 'kjhgf@#\$%^876543234567', and the 'Upload Document For District' section with a file named '74. next_word_prediction (1).rar'. Both sections show a 'Choose File' button and a confirmation of the selected file.

Upload Document For District

Choose File 74. next_word_prediction (1).rar

Selected file: 74. next_word_prediction (1).rar

Expected Result:

The system should enforce proper validations. Replace State and Replace District should accept only valid alphabetic values (as per requirement) and reject special characters and invalid numeric inputs with a validation message. Upload Document for State and Upload Document for District should allow only supported file formats such as .pdf, .jpg, .jpeg, .png and display an error message for invalid file types.

Actual Result:

The system is allowing invalid inputs in both sections. Replace Mandal and Replace Local Area / Village fields are accepting special characters,

numeric values, and mixed invalid inputs without restriction. Upload Document for Mandal and Upload Document for Local Area / Village are allowing unsupported file formats such as .zip and .rar files.

The image shows a web form with two main sections. The first section, titled 'Current Mandal', contains a text input field with the value '1068', a 'Replace Mandal' field with the value 'Penugonda@123456*&^%\$', and an 'Upload Document For Mandal' section. The upload section has a 'Choose File' button and a text input field containing 'AP_RERA_authorized_stamp.zip'. Below this, it says 'Selected file: AP_RERA_authorized_stamp.zip'. The second section, titled 'Current Local Area / Village', contains a text input field with the value '27692', a 'Replace Local Area / Village' field with the value 'Munmaru @8765435678*&^%\$', and an 'Upload Document For Local Area / Village' section. This section also has a 'Choose File' button and a text input field containing 'AP_RERA_authorized_stamp(1).zip', with 'Selected file: AP_RERA_authorized_stamp(1).zip' displayed below it.

Expected Result:

The system should enforce proper validations. Replace Mandal and Replace Local Area / Village should accept only valid alphabetic values (as per requirement) and reject special characters and invalid numeric inputs with a validation message. Upload Document for Mandal and Upload Document for Local Area / Village should allow only supported file formats such as .pdf, .jpg, .jpeg, .png and display an error message for invalid file types.

Actual Result:

The system is allowing invalid inputs in both sections. Replace PIN Code is accepting special characters, alphabets, and values beyond the valid

length without restriction. Replace Address Proof is accepting invalid formats without proper validation. Upload Document for PIN Code and Upload Document for Address Proof are allowing unsupported file formats such as .zip and .rar files.

The screenshot displays two sections of a web form. The top section, titled 'Current PIN Code', contains a text input with '987654', a 'Replace PIN Code' input with 'kjhgfdgh@#\$%^&87678788', and an 'Upload Document For PIN Code' section showing a file named 'AP_RERA_authorised_stamp.zip' selected. The bottom section, titled 'Current Address Proof', contains a text input with '[object Object]', a 'Replace Address Proof' input with '1-134 jkfcgh', and an 'Upload Document For Address Proof' section showing a file named '74. next_word_prediction (1).rar' selected. Both sections show the selected file names below the upload area.

Expected

Result:

The system should enforce proper validations. Replace PIN Code should accept only numeric values and must be restricted to a valid 6-digit format, rejecting special characters and alphabets with a validation message. Replace Address Proof should accept only valid input as per requirement and restrict invalid formats. Upload Document for PIN Code and Upload Document for Address Proof should allow only supported file formats such as .pdf, .jpg, .jpeg, .png and display an error message for invalid file types.

Actual

Result:

The system is allowing unsupported file formats. In the Upload New File

field, .zip files (e.g., “AP_RERA_authorised_stamp(1).zip”) are being accepted without any restriction.

The screenshot shows a web form with three main sections. The first section, 'Select the Document', contains a dropdown menu with the text 'Income tax returns Acknowledgement year2'. The second section, 'Description for Replacing the File', contains a text area with the placeholder text 'Explain why you want to replace the uploaded file'. The third section, 'Upload New File', contains a 'Choose File' button and a text input field with the filename 'AP_RERA_authorised_stamp(1).zip'. At the bottom of the form is a blue 'Submit' button.

Select the Document

Income tax returns Acknowledgement year2

Description for Replacing the File

Explain why you want to replace the uploaded file

Upload New File

Choose File AP_RERA_authorised_stamp(1).zip

Submit

Expected Result:

The system should restrict file uploads to only supported formats such as .pdf, .jpg, .jpeg, .png. When a .zip file or any unsupported format is uploaded, the system should display a validation message like “Invalid file format. Please upload only supported document types.”

Actual

Result:

The system is allowing invalid inputs in both fields. Replace Authorized Signatory Name is accepting special characters, numeric values, and invalid input without restriction. Upload Document for Authorized Signatory Name is allowing unsupported file formats such as .rar and .zip files.

The screenshot displays a web form titled "Authorized Signatory Details". On the left, under "Select Fields To Change", there are five checkboxes: "Authorized Signatory Name" (checked), "Authorized Signatory Designation", "Authorized Signatory Mobile Number", "Authorized Signatory Email", and "Authorized Signatory ID Proof". On the right, under "Update Selected Fields", there are three sections: "Current Authorized Signatory Name" with an empty text input field; "Replace Authorized Signatory Name" with a text input field containing the string "aaaaaaaaaaaaa!@#^\$554323455654433"; and "Upload Document For Authorized Signatory Name" with a "Choose File" button and a file input field showing "74. next_word_prediction (1).rar". Below the file input, it says "Selected file: 74. next_word_prediction (1).rar".

Expected

Result:

The system should enforce proper validations. Replace Authorized Signatory Name should accept only valid alphabetic values (and spaces if allowed) and reject special characters and numeric values with a validation message. Upload Document for Authorized Signatory Name should allow only supported file formats such as .pdf, .jpg, .jpeg, .png and display an error message for invalid file types.

Actual**Result:**

The system is allowing invalid inputs in both fields. Replace Authorized Signatory Designation is accepting special characters, numeric values, and invalid input without restriction. Upload Document for Authorized Signatory Designation is allowing unsupported file formats such as .rar and .zip files.

Update Selected Fields
