

Bug Report

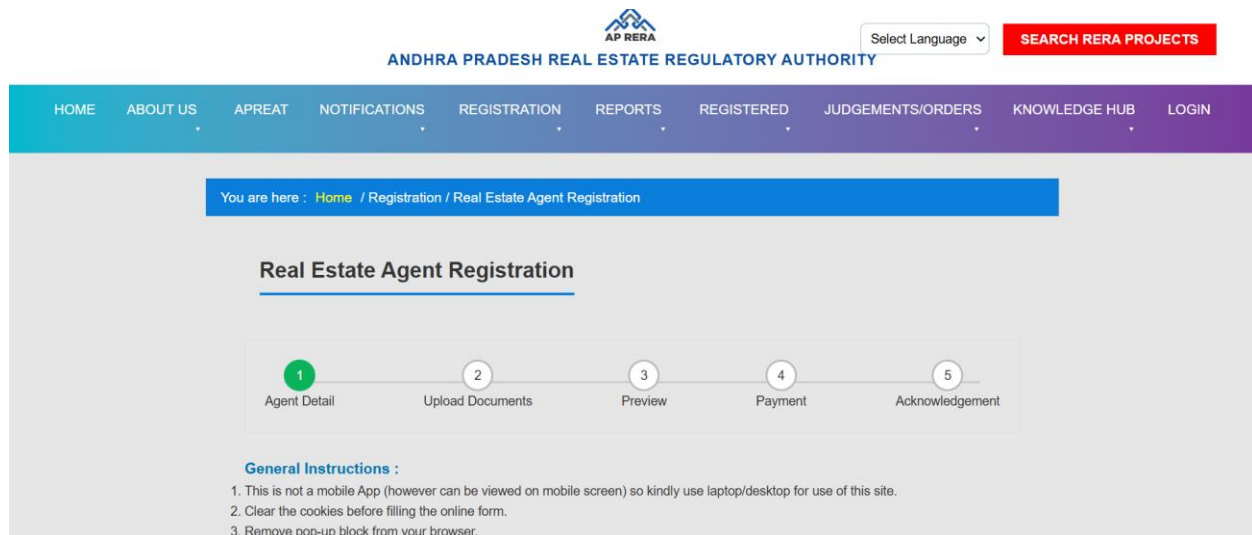

PROJECT NAME: - AP RERA

TESTING TEAM: - Dev, Rakesh, Lasya, Ram Mohan

MODULE NAME : AGENT REGISTRATION

Test Case ID(TC007)

Actual Result: Clicking “Home / Registration / Real Estate Agent Registration” does not redirect to this page and Navigation path text appears like links but has no navigation functionality.

Expected Result: Home link and Registration link should redirect user to Home page and registration page . Navigation path links should behave as hyperlinks. Page should load without errors. URL should change according to the selected page.

Test Case ID(TC027)

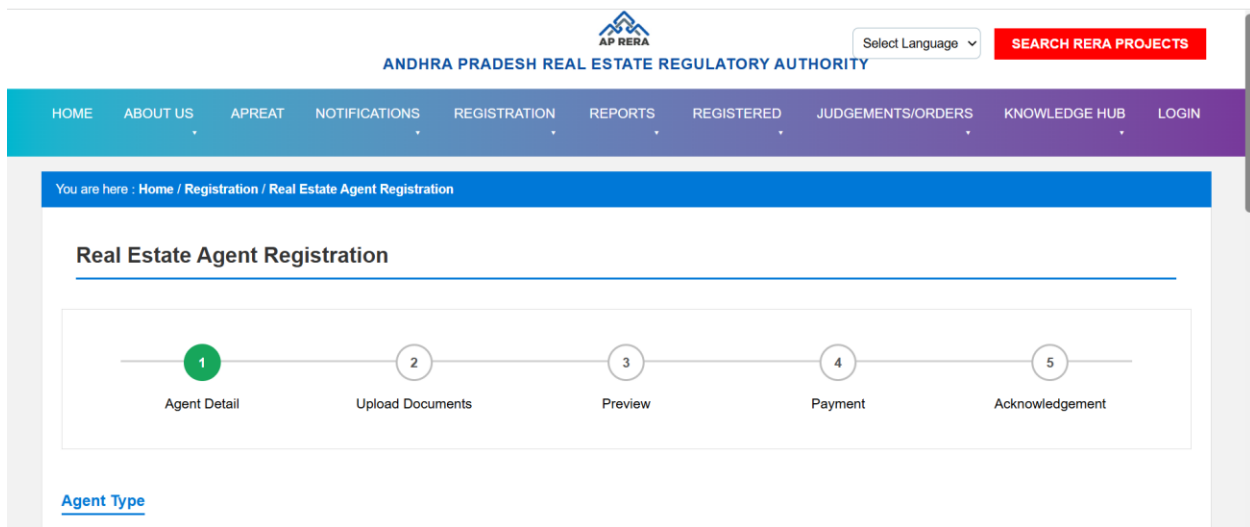

Actual Result: Clicking “Home / Registration / Real Estate Agent Registration” does not redirect to this pages and Navigation path text appears like links but has no navigation functionality.

The screenshot displays the AP RERA website interface. At the top, the logo and name 'ANDHRA PRADESH REAL ESTATE REGULATORY AUTHORITY' are visible, along with a language selection dropdown and a 'SEARCH RERA PROJECTS' button. A navigation bar contains links for HOME, ABOUT US, APREAR, NOTIFICATIONS, REGISTRATION, REPORTS, REGISTERED, JUDGEMENTS/ORDERS, KNOWLEDGE HUB, and LOGIN. Below this, a breadcrumb trail reads 'You are here : Home / Registration / Real Estate Agent Registration'. The main heading is 'Real Estate Agent Registration'. A progress bar shows five steps: 1. Agent Detail (highlighted with a green circle), 2. Upload Documents, 3. Preview, 4. Payment, and 5. Acknowledgement. Under the 'Agent Type' section, there are two radio button options: 'Individual' and 'Other than individual'.

Expected Result: Home link and Registration link should redirect user to Home page and registration page . Navigation path links should behave as hyperlinks. Page should load without errors. URL should change according to the selected page.

Test Case ID(TC043)

Actual Result: Clicking “Home / Registration ” does not redirect to this pages and Navigation path text appears like links but has no navigation functionality.

Expected Result: Home link and Registration link should redirect user to Home page and registration page . Navigation path links should behave as hyperlinks. Page should load without errors. URL should change according to the selected page.

Test Case ID(TC057)

Actual Result: After refreshing the page, all entered details are getting cleared.

The screenshot shows a web browser window with the URL `0jv8810n-5173.inc1.devtunnels.ms/applicant-details`. The form is titled "Agent Type" and "Applicant Details". It contains various input fields for personal and professional information, including name, email, phone numbers, addresses, and identification numbers. There are also sections for "Local Address For Communication", "Projects Launched In The Past 5 Years", and "Litigations". The form is currently empty, indicating that the data has been cleared after a page refresh.

Agent Type

☒ Individual ☐ Other than individual

Applicant Details

Agent Name * Upload Photograph (JPG) * IMG20240215183906.jpg Father's Name * Occupation *

Email Id * Aadhaar Number * PAN Card Number * Upload PAN Card (PDF) * jyothis resume (1).pdf

Mobile Number * Land Line Number License Number by local bodies License Issued Date

Local Address For Communication

Address Line 1 * Address Line 2 State * District *

Mandal * Local Area / Village * PIN Code * Upload Address Proof (PDF) * jyothis resume (1).pdf

Projects Launched In The Past 5 Years

Last five years project details * ☒ Yes ☐ No

Project Name *

Litigations

Any Civil/Criminal Cases * ☐ Yes ☒ No Self Declared I want voice ass...ver so upd.docx

Expected Result: The system should retain all previously entered data after the page refresh.

Test Case ID(TC080)

Actual Result: Both **Yes** and No options can be selected at the same time.

Projects Launched In The Past 5 Years

Last five years project details * ☒ Yes ☐ No

Project Name *

AP RERA PROJECT

Expected Result: Only one radio button should be selected at any time. The system must not allow both options to be selected simultaneously.

Test Case ID(TC081)

Actual Result: After entering the project name and clicking the Add button, nothing happens. The project details are not added to any list or table.

The screenshot shows a web form with the following elements:

- Title:** Projects Launched In The Past 5 Years
- Radio Buttons:** Last five years project details *
 - ☒ Yes
 - ☐ No
- Text Input:** Project Name *
- Button:** Add

Expected Result: The added project should be displayed below the input field. The system should allow multiple project entries to be added one by one.

Test Case ID(TC092)

Actual Result: Both Yes and No options can be selected at the same time. Selecting one option does not deselect the other. The buttons are behaving like checkboxes instead of radio buttons.

Litigations

Any Civil/Criminal Cases * ☒ Yes ☐ No

Note : In case Petitioner/Respondent are more than one, please provide their names by comma separated.

Case No *	Name & Place of Tribunal/Authority *	Name of the Petitioner *	Name of the Respondent *
1	Deva Kalyan Eepi	Deva Kalyan Eepi	Deva Kalyan Eepi
Facts of the Case/Contents of the Petitioner *	Present Status of the case *	Interim Order if any *	Details of final order if disposed *
	Completed	Yes ☒ No ☒	Yes ☒ No ☒

Expected Result: Only one option (Yes or No) should be selectable at a time for each question. When the user selects Yes, the No option should automatically get deselected. When the user selects No, the Yes option should automatically get deselected.

Test Case ID(TC093)

Actual Result: After entering all litigation details and clicking the Add button, no action occurs. The details are not added to any list or table.
